**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I was extremely unhappy with the internet and phone service options, selection, quality and (especially) pricing available to me from Comcast and AT&T. I chose a competitive provider (Sonic) as soon as they entered my market. I could not be happier to have have a high quality, low cost competitor to the other providers.

The fiber connection I now have is much better than the cable or DSL options previously available to me. I was very unhappy with the service levels and price increases in the past (including imposition of data usage caps) and am very glad Sonic came into our market.

I really hope you will support competition and infrastructure sharing that will allow small players like Sonic to provide quality service at affordable prices that will keep one or two providers from dominating markets. My family has a special needs child who must be home schooled and reliable, fast internet is important to his education. Sonic provides this with excellent phone service also.
